

Introducing Transcendent® Enterprise Inventory Management Solutions

Transcendent® was developed with the simple premise that when inventory is visible, inventory works for our customers.

What can Transcendent® do to help manage my inventory?

- ✓ Inventory Visibility
- ✓ Reporting/Dashboards
- ✓ Order Management
- ✓ Replenishment
- ✓ Retail Interfaces
- ✓ Barcode Scanning
- ✓ API Integrations
- ✓ Shipping Notifications
- ✓ Cloud-based Solution
- ✓ Primary/DR Infrastructure
- ✓ Mobile Device Applications
- ✓ Dedicated Support Services

“Knowing when my inventory is coming, where it is in my supply chain, and when its deployed has been invaluable to me.” – Major Cable MSO Manager

Inventory Visibility

- ✓ Site Level Inventory
- ✓ Status Categories
- ✓ Physical and Virtual Locations
- ✓ Birth-to-Death History

Point of Touch Accountability

- ✓ Point-to-Point Inventory Verification
- ✓ Native and Web-based Mobile Apps
- ✓ Bluetooth and Wired Scanners

Multiple Interfaces

- ✓ Web User Interface
- ✓ Mobile Devices
- ✓ Web Services/APIs

Inventory Visibility

- ✓ 3PL/Vendor Connectivity
- ✓ 3rd Party Replication/Reporting
- ✓ Financial Applications
- ✓ Customer Billing Solution
- ✓ Recyclers

Mobile scanning allows you to work where your inventory is located.

Flexible to support requirements, structured to support consistency.
