

Introducing Transcendent® Enterprise Asset Management Software

Transcendent® was developed with the simple premise that when maintenance is measured, assets last longer, run better and provide a better return on investment.

Expending resources to conduct maintenance will extend equipment life and increase reliability for your facility and bottom line.

A facility can save between
12-18%
using preventive maintenance

Commissioning can save a hotel
15%
of its energy costs a year

Benefits

- ✔ Extend equipment life by 20%
- ✔ Barcodes provide proof of presence
